# Eugene Fox
## Fullstack developer (.NET/React)
Saint-Petersburg, Russia (available for relocation)

Enthusiastic, fast learning and energetic person. Love coding and creating something new. Like to draw and compose music. Always strive for new knowledge.

## Experience

Spring 2024 – Spring 2025
### Senior Software Architect | Ubitel
Architecting and developing software for embedded Linux systems.
- Designed a .NET-based software architecture for a product from scratch
- Designed modular web interface with React/Typescript
- Praised by colleagues for efficiency and productivity

2018 – Present
### Open-source Developer
Creating new projects, occasionally contributing to open source.
- Created 2 browser extensions with React with a total 20k of weekly users
- Created .NET library that has 3,000 downloads on nuget.org
- Developed an Android app with Xamarin for my university

Spring 2023 – Spring 2024
### Senior Software Engineer | A-rial
Development of wireless device management systems.
- Developed a web-interface with React/Typescript for a wireless router
- Designed UI/UX for several web applications
- Conducted several big QA tests in collaboration with a client

## Projects

Spring 2025
### EasyLogon | GitHub, Website, Demo
Service for QR code authentication on any website.
- Built a web application with React, .NET and SignalR
- Built an Android password manager app with Xamarin.Forms and C#
- Built a plugin script for 3rd party websites with React/Typescript

Spring 2025
### Tabs aside | GitHub, Extension
Extension for saving browser tabs for later.
- Build a Chrome/Firefox extension with React/TypeScript
- Conceptualized and designed extension's UI/UX

Spring 2021
### SimpleOTP | GitHub
Lightweight extensible library for OTP authenticators.
- Built a library for generating and validating OTP codes with .NET 8

Spring 2019
### FoxTube | Demo
UWP client for YouTube.
- Created an algorithm that combines video and audio feeds on the fly

## Education

### Bonch-Bruevich University of Telecommunications

2019 – 2023
**Computer science (BS degree)**

## Tech stack

**.NET proficiency:**
ASP.NET • MVC • EF Core • DDD • WinUI/UWP/WPF • MAUI/Xamarin • WinForms • Unity

**NodeJS proficiency:**
Next.js • Vite • SASS • TypeScript • CSS • HTML

**Supplementary:**
REST API • Git • CI/CD automation • Docker • System administration

**Familiar with:**
Redux • Webpack • Vue • WS • Python • Jest • Azure • SQL • Mongo • C/C++

## Soft skills

- Creativity
- Fast learning
- Enthusiasm
- Problem solving
- Teamwork
